

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Application of: Michael TUCCI et al.

Application No.: 09/899,776

Group Art Unit: 2833

Date Filed: July 5, 2001

Examiner: Gary F. Paumen

For: CARBON FIBER ELECTRICAL CONTACTS FORMED OF COMPOSITE  
CARBON FIBER MATERIAL

Conf. No.: 2359

Class-Subclass: 200-262000

**Issue Fee Paid: August 29, 2011**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

**REQUEST FOR CORRECTED FILING RECEIPT**

Sir:

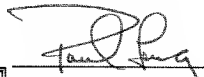

It is respectfully requested that the official Filing Receipt be corrected to read that this application is a continuation-in-part of U.S. application No. 09/498,872 filed February 7, 2000, now U.S. Patent No. 6,444,102.

Attached hereto as **Exhibit A** is a copy of the official Filing Receipt dated December 10, 2010 issued by the Patent Office erroneously omitting that this application is a continuation-in-part of U.S. application No. 09/498,872.

Attached hereto as **Exhibit B** is a copy of the Declaration And Power of Attorney filed on July 5, 2001 with this application. **Exhibit B** correctly indicates that this application is a continuation-in-part of U.S. application No. 09/498,872, filed February 7, 2000.

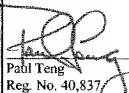

Applicant hereby requests the Patent Office to issue a corrected filing receipt to correct the aforementioned Patent Office mistake.

Respectfully submitted,

PAUL TENG, Reg. No. 40,837  
Attorney for Applicant  
COOPER & DUNHAM LLP  
30 Rockefeller Plaza, 20<sup>th</sup> Floor  
New York, New York 10112  
Tel.: (212) 278-0400

This correspondence is being filed electronically with the U.S. Patent and Trademark Office via EFS-Web.

Receipt is acknowledged of this non-provisional patent application. The application will be taken up for examination in due course. Applicant will be notified as to the results of the examination. Any correspondence concerning the application must include the following identification information: the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. **If an error is noted on this Filing Receipt, please submit a written request for a Filing Receipt Correction. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections**

**Applicant(s)**

Michael Tucci, New York, NY;  
Phillip Uruburu, Central Islip, NY;  
Stephen Veselaski, Bay Shore, NY;

**Power of Attorney:** The patent practitioners associated with Customer Number 23432

**Domestic Priority data as claimed by applicant**

**Foreign Applications**

**If Required, Foreign Filing License Granted:** 08/23/2001

The country code and number of your priority application, to be used for filing abroad under the Paris Convention, is **US 09/899,776**

**Projected Publication Date:** 03/24/2011

**Non-Publication Request:** No

**Early Publication Request:** No

**Title**

Carbon fiber electrical contacts formed of composite carbon fiber material

**Preliminary Class**

439

**PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES**

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

**LICENSE FOR FOREIGN FILING UNDER****Title 35, United States Code, Section 184****Title 37, Code of Federal Regulations, 5.11 & 5.15****GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as

set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

#### **NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

(U.S. Application No. 09/899,776)

DECLARATION AND POWER OF ATTORNEY FOR  
CONTINUATION-IN-PART PATENT APPLICATION

As below-named inventors, we hereby declare that:

Our residence, post office address, and citizenship are as stated below next to our names, we believe we are the original, first and sole inventors of the subject matter which is claimed and for which a patent is sought on the invention entitled CARBON FIBER ELECTRICAL CONTACTS FORMED OR COMPOSITE CARBON FIBER MATERIAL, the specification of which is attached hereto.

We hereby state that we have reviewed and understand the contents of the above-identified specification, including the claims, and that we believe a patent on the claimed subject matter is not barred under any provisions of Title 35, United States Codes §102; that this application in part discloses and claims subject matter disclosed in our earlier-filed pending application, Serial No. 09/498,872, filed February 7, 2000, and is a continuation in part thereof;

That, as to the subject matter of this application which is common to said earlier application, we do not know and do not believe the same was ever known or used in the United States before our invention thereof or patented or described in any printed publication in any country before our invention thereof or more than one year prior to said earlier application, or in public use or on sale in the United States more than one year prior to said earlier application; that said common subject matter has not been patented or made the subject of an inventor's certificate before the date of said earlier application in any country foreign to the United States on an application filed by us or our legal representatives assigns more than twelve months prior to said application; and that no application for patent or inventor's certificate on said common subject matter has been filed by us or our representatives or assigns in any country foreign to the United States.

That, as to the subject matter of this application which is not common to said earlier application Serial No. 09/498,872 filed February 7, 2000, we do not know and do not believe that the same was ever known or used in the United States before our invention thereof or patented or described in any printed publication in any country before our invention thereof or more than one year prior to the date of this application, or in public use or on sale in the United States more than one year prior to the date of this application; and that said subject matter which is not common to said earlier application has not been patented or made the subject of an inventor's certificate in any country foreign to the United States on an application filed by us or our legal representatives or assigns more than twelve months prior to the date of this application; and that no application for patent or inventor's certificate on said invention has been filed by us or our representatives or assigns in any country foreign to the United States.

We acknowledge the duty to disclose information which is material to the examination of this application in accordance with Title 37, Code of Federal Regulations, §1.56(a) including material information that occurred between the filing date of February 7, 2000 and the filing date of this application.

And we hereby appoint JAY H. MAIOLI, Reg. No. 27,213, whose post office address is Cooper & Dunham, 1185 Avenue of the Americas, New York, New York 10036, or his duly appointed associates, our attorney, with full power of substitution and revocation, to prosecute this application, to make alterations and amendments therein, to file continuation and divisional applications thereof, to receive the Letters Patent, and to transact all business in the Patent and Trademark Office in connection therewith, and specify that communications about the application are to be directed to the following correspondence address:

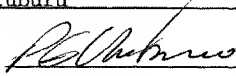

59951-Z

Jay H. Maioli  
c/o COOPER & DUNHAM  
1185 Avenue of the Americas  
New York, NY 10036

and that all telephone calls be directed to Jay H. Maioli  
(212) 278-0400.

We hereby declare that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 in the United States Code, and that such willful false statements may jeopardize the validity of this application or any patent issuing thereon.
